

CardioCaseMix Cardiomyopathies

Interactive online platform for CMR training

10 CMR cases cardiomyopathies

New e-Learning platform

Buy access here!

● Date

available from 08.11.2024

up to 07.11.2025

● On-demand training

Start the online training immediately after booking online. Your access is valid for 6 months.

Dear colleagues,

Welcome to our **CardioCaseMix Cardiomyopathies**, one of our interactive CMR case databases, in which the DHZB Academy provides cases from the German Heart Centre of the Charité (Campus Virchow Clinic) and the Department of Cardiology of the Helios University Hospital Wuppertal!

In our **CardioCaseMix Cardiomyopathies**, we guide you through the interpretation of 10 cardiac MRI examinations on our learning platform using image and video material. The spectrum of cardiomyopathies ranges from frequent to rare disease entities, that are seldomly seen in clinical routine.

We offer you an ideal complement to existing CMR training courses and on-site training at certified training centres. You can claim the cases for the cardiac MRI logbooks of national (DGK) and international (EACVI, SCMR) societies.

Enjoy our on-demand training, while collecting cases for our logbook!

● Case collection

– 10 cardiac MRI examinations

video and image sequences with findings

– Common and rare cardiomyopathies

10 cases with typical and rare findings

– Case-based learning

Embedding in a clinical case

– Didactic preparation

Explanations and guideline links

● Training time

- **Access to the on-demand-platform**
for six months
- **Individual training schedule**
stop and continue any time
- **Review of cases**
ca. 15 minutes per case

● Target group

- **Beginners and colleagues with basic CMR knowledge**
Colleagues who are aiming for certification in the field of cardiac MRI (Level I-III)

● Certification

- **Anerkennung der Fälle**
Online-Fälle für das DGK-Logbuch
- **Lernerfolgskontrolle**
abschließende Lernerfolgskontrolle (10 Multiple-Choice-Fragen)
- **X CME-Punkte** (Zertifizierung durch die Ärztekammer)

● Admission

Fee for CardioCaseMix Cardiomyopathies: 50 €

- Access to the CardioCaseMix Cardiomyopathies course on the DHZB Moodle learning platform for 6 months
- Review of 10 cases of cardiac MRI examinations of patients with cardiomyopathies with a final multiple-choice test to check learning success
- Certificates of attendance and list of cases for CMR logbooks
